# Side Trak

TV	Side Trak

An AI powered side screen companion that keeps you informed and entertained at a glance.

Features:

1. AI
   - tv overlay for interactive sports experience (similar to prime next gen stats)

   - control display with motion/voice
   - general language processing assistant
   - machine learning when distracted/bored, successful, and interested/likely to participate
   - passport manager - chances of success

2. interactive customizable display

   - combines all relevant bets/fantasy across platforms to easily keep track
   - tracks live odds/updates for sportsbetting and prediction markets connected to tv content
   - can display breaking news, other game scores, stock market
   - sync to phone reminders, messages, etc.
   - sludge content for boredom (subway surfers, slime, etc.)
   - scrollable media (tiktok, reels)

Components:

1. thin screen
   - fantasy/premium (glass or fold)

2. magnet attachment
   - sticker add on
   - optional clamp/stand

3. camera/microphone
